lance which is the price of liberty. Reform is necessary to rebuild and establish in the hearts of the whole people in the Union, eleven years ago, happily rescued from the danger of a secession of States, but now to be saved from a corrupt centralism, which, after inflicting upon ten States the rapacity of carpet-bag tyranny, has honeycombed the offices of the Federai Government itself with incapacity, waste and fraud; infected States and municipalities with the contagion of misrule, and locked fast the prosperity of an industrious people in the paralysis of hard times.

Reform is necessary to establish a sound currency, restore the public credit, and maintain the National honor.

We denounce the Republican party for its failure for all these eleven years to make good the promise of the legal-tender notes which are a changing standard of value in the hands of the people, and the nonpayment of which is a disregard of the plighted faith of the Nation.

We denounce the improvidence which, in eleven years of peace, has taken from the people in Federal taxes thirteen times the whole amount of the legal tender notes and squandered four times this sum in useless expense without accumulating any reserve for their redemption.

We denounce the financial imbeelity and

the great charter of these our rights, it behooves

a free people to practice, also, that eternal vigi-

mmorality of that party which, during eleven ears of peace, has made no advance toward reyears of peace, has made no advance toward re-samption, no preparation for resumption, but, instead, has obstructed resumption by wasting our resources and exhausting all our surplus income, and, while annually professing to in-tend a speedy return to specie payment, has annually enacted fresh hindrances thereto. As such a hindrance we denounce the resumption clause of the act of 1875, and we here demand its repeal.

its repeal.

We demand a judicious system of preparation by public economies, by official retrenchments, and by wise finance, which shall enable the Nation soon to assure the whole world of its perfect ability and its perfect readiness to meet any of its promises at the call of the creditor entitled to payment.

We believe such a system, well devised, and above all, intrusted to competent hands for execution, creating at no time an artificial scarcity of currency, and at no time aliarming the public mind into a withdrawai of that vaster machinery of credit by which ninety-five per cent. of all business transactions are performed —a system open, public, and inspiring general confidence, would, from the day of its adoption, bring healing on its wings to all our harassed industry, and set in motion the wheels of commerce, manufactures, and the mechanic arts, restore employment to labor, and renewing in all its natural sources the prosperity of the people.

Reform is necessary in the sum and mode of Federal taxation, to the end that capital may be set free from distrust and labor lightly bur-

We denounce the present tariff, levied upon nearly four thousand articles, as a masterplece of injustice, inequality and false pretense. It yields a dwindling, not a yearly rising revenue. It has impoverished many industries to substitute a few. It prohibits imports that might purchase the products of American leaders from the first to an inferior rank upon the high seas. It has cut down the sales of American manufactures at home and abroad, and depleted the returns of American agriculture, an industry followed by half our people.

It costs the people five times more than it produces to the Treasury, obstructs the processes of production, and wastes the fruits of labor. It promotes fruid, fosters smuggling.

At coast the people ave times more than it produces to the Treasses of production, and wastes the fruits of labor. It promotes fraud, fosters smuggling, enriches dishonest officials, and bankrupis honest merchants. We demand that all Custom House taxation shall be only for revenue. Reform is necessary in the scale of public expense, Federal, State and municipal. Our Federal is accessary in the scale of public expense, Federal, State and municipal. Our aggregate taxation has awolden from \$60,000,000 gold, in 1850, to \$500,000,000 currency, in 1870. Our aggregate taxation, from \$150,000,000 gold, in 1850, to 730,000,000 currency, in 1870, or in one decade from less than \$5 per head to more than \$18 per head. Since the peace, the people have paid to their tax gatherers more than wice the same for the Federal Government alone. We demand a vigorous frugality in every department, and from every officer of the Government.

Reform is necessary to put a stop to the profiligate waste of public lands, and their diversion from actual settlers by the party in power, which has squandered 2,000,000 of acres upon railroads alone, and out of more than thrice that aggregate has disposed of less than a sixta directly to tillers of the soil.

Reform is necessary to correct the omissions of a Republican Congress, and the errors of our treaties and our diplomacy which have stripped our brethren of the Pacific coast to the shield of American citizenship, and have exposed our brethren of the Pacific coast to the incursions of a race not sprung from the same great parent stock, and, in fact, now by law denied citizenship through naturalization, as being neither accustomed to the traditions of a progressive civilization nor exercised in liberty under equal laws. We denounce the policy which thus discards the liberty loving German, and tolerates the revival of the Cooly trade in Mongolian women imported for immoral purposes, and Mongolian men held to servile labor contracts, and demand such nood-ification of the treaty with the Univese E

Reform is necessary, and can never be effected but by making it the controlling issue of the election, and lifting it above the two faise issues with which the office holding classes and the party in power seek to smother it.

First—The false, issue with which they would enkindle sectarian strife in respect to the Public Schools, of which the establishment and support, belonging exclusively to the several States, and which the Democratic party have cherished from their foundation, and is resolved to maintain without partiality, or prefered to maintain without partiality, or prefered to maintain without partiality, or prefered to maintain without partiality. orm is necessary, and can never be effect support, belonging exclusively to the several states, and which the Democratic party have cherished from their foundation, and is resolved to maintain without partiality, or preference for any class, sect or creed, and without contribution from the treasury to any.

SECOND—The false issue by which they seek to light anew the dying embers of sectional hate between kindred peoples, once unnaturally estranged, but now re-united in one indivisible Republic and a common destiny.

Reform is necessary in the civil service. Experience proves that efficient economical conduct of the government business is not possible if its civil service be subject to change at every election, be a prize fought for at the ballot box, be a brief reward of party zeal, instead of posts of honor assigned for proved competency, and held for fidefity in the public employ; that the dispensing of patronage should neither be a tax upon the time of all our public men, nor the linstrument of their ambition. Here again professions falsified in the performance attest that the party in power can work out no practical or substance reform.

out the party in power can work out no peal or salutary reform. Reform is necessary even more in the higher grades of public service. President, Vice Pres-ident, Judges, Senators, Representatives, Cabi-net officers—those and all others in authority

When the annals of this Republic show the disgrace and censure of a Vice-President; a late Speaker of the House of Representatives marketing his rulings as a presiding officer; three Senators profiting secretly by their votes as law-makers; five Chairmen of the leading Committees of the late House of Representative exposed in jobbery; a late Secretary of the Treasury forcing balances in the public accounts; a late Attorney General misappropriative public late Attorney General misappropriation public ury forcing balances in the public accounts; a late Attorney General misappropriating public funds; a Secretary of the Navy enriched or enriching his friends by percentages levied off the profits of contractors with his department; an Embassador to England censured in a dishonorable speculation; the President's Private Secretary barely escaping conviction upon trial for guilty complicity in frauds upon the revenue; a Secretary of War impeached for high crimes and misdemeanors—the demonstration is complete that the first step in reform must be the people's choice of honest men from another party, lest the dis sae of one political organization infect the body politic, and lest, by making no cliange of men or parties, we get no change of measures and no real reform.

All these abuses, wrongs and crimes, the pro-

of measures and no real reform.

All these abuses, wrongs and crimes, the product of sixteen years' ascendency of the Republican party, create a necessity for reform confessed by Republicans themselves; but their reformers are voted down in Convention and displaced from the Cabinet. The party mass of honest voters is poweriess to resist the eighty thousand office holders, its leaders and guides. Reform can only be had by peaceful, civie revolution. We demand a change of system, a change of Administration, a change of parties, that we may have a change of measures and of men.
